♦ **1st Publication Public Review of BSR/ASHRAE/IES Addendum g to ANSI/ASHRAE/IES Standard 100-2018, *Energy Efficiency in Existing Buildings***

This proposed addendum revises Section 5.2.1 to simplify and clarify the descriptive language for net energy consumption, deletes the existing Figure 5-1 illustrating the net energy use concept and replaces it with a new Figure 5-1, and deletes the existing Table 5-1 completely as it does not add any useful information with respect to a building's net energy consumption.

♦ **1st Public Review of BSR/ASHRAE/IES Addendum cx to ANSI/ASHRAE/IES Standard 90.1-2019, *Energy Standard for Buildings Except Low-Rise Residential Buildings***

This addendum introduces several normative reference updates that were not included in a previous addendum (cm.)
